

ELECTRONICS TRADING & DISTRIBUTION

PeridotX Electronics Management

Trading, Stock & Accounts for Electronics Businesses

PeridotX Electronics Management runs an electronics trading business end to end — quotation to invoice and delivery note, purchase to goods receipt, a barcode-ready item master and multi-warehouse stock — with every sale and purchase posting to a double-entry ledger, tax-registered and walk-in print formats, and multi-branch, multi-currency control.

Quotation → Invoice → Delivery Note

Barcode item master & multi-warehouse stock

Tax and non-tax print formats, multi-branch

What's included

Everything Electronics Management delivers out of the box

Sales Invoicing & Delivery

Quotations, sales orders, invoices, delivery notes and returns — with tax-invoice and non-tax print variants and a cash / cheque / online / card payment breakdown.

Item Master & Barcodes

A structured item catalog with categories, units, manufacturers and barcode types, ready for scanner-driven entry.

Purchasing & Goods Receipt

Requisitions, purchase orders, goods receipts and bills, with goods-receipt returns and purchase reporting.

Stock & Warehouses

Stock ledger across warehouses with transfers, issues, adjustments and counts; every document shows its stock impact.

Customer & Supplier Accounts

Live current balance on every document, receipts and payments with an 'applied against' trail, PDC tracking and aging.

Controls & Audit

A GL-effect panel on every document, double-submit protection, configurable numbering series, approvals and role-based permissions.

Modules at a glance

What's inside Electronics Management, connected end to end

- 1 Sales & Receivables**
Quotations, sales orders, sales invoices, delivery notes, returns, credit and debit notes, receipts and PDC management.
- 2 Procurement & Payables**
Purchase requisitions, orders, goods receipts and returns, purchase invoices and supplier payments.
- 3 Inventory & Stock**
Items, barcodes, warehouses, stock issues, transfers, adjustments and physical counts.
- 4 General Ledger & Reporting**
Vouchers, chart of accounts, trial balance, P&L, balance sheet, day book and customer and supplier ledgers.
- 5 Multi-Company & Currency**
Group, company and branch hierarchy with multiple currencies, FX revaluation and consolidation.
- 6 Settings & Document Numbering**
Tax codes, GL mappings, per-document numbering series, report sort order and print formats configured once.

How it flows

One record carries through every stage — no re-keying

The PeridotX platform

What every PeridotX product is built on, and how it is delivered

- **One connected platform**
Shares the PeridotX company, branch and fiscal-year model — products combine without re-keying.
- **Control by role**
Granular role-based permissions and a searchable audit trail on every important action.
- **Web-based & yours**
Runs in any browser on your own SQL Server database, with per-client branding and licensing.
- **Set up & supported**
Implemented around your masters and conventions, with backup tooling and ongoing PeridotX support.
