PeridotX Power Solution

Scrap & Warranty-Claim Management with a Full ERP Core

An industry-specific solution for battery and power-products businesses. It tracks the scrap and warranty-claim documents that generic ERPs were never designed for — claim receipt, acceptance, vendor claims, settlement and scrap sales — on top of a complete receivables, payables, inventory and General Ledger core.

13 scrap & claim document types

Claim → vendor claim → settlement, fully traced
